

Please reject the NAB's petition 04-160. As an over the road truck driver XM radio is the best thing they ever came out with. As a paying customer and living in this United States the land of the free I should be able to listen to whatever I want. If the weather and traffic reports help me to save time and keep me out of a bad situation it is very beneficial to me. You don't tell satellite tv they can't broadcast weather so why would you tell satellite radio they can't.

Thankyou

,

Daniel Mohn
